Condensed Consolidated Interim Statements of Cash Flows

(Expressed in Canadian dollars - unaudited)

1. Nature and continuance of operations and going concern

Standard Uranium Ltd. (the "Company") was incorporated in the province of British Columbia on November 20, 2017. The Company is engaged in the exploration and evaluation of resource properties. The Company's registered office is #918 - 1030 West Georgia Street, Vancouver, British Columbia, V6E 2Y3.

These condensed consolidated interim financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at July 31, 2024, the Company has not generated any revenue and has incurred losses since inception. The Company's continuation as a going concern is dependent on its ability to generate future cash flows and/or obtain additional financing. Management intends to finance operating costs over the next twelve months with cash on hand and private placements of common stock. There is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

2. Material accounting policies

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been omitted or condensed, and therefore these unaudited condensed consolidated interim financial statements should be read in conjunction with the Company's April 30, 2024, audited annual consolidated financial statements and the notes to such financial statements.

These unaudited condensed consolidated interim financial statements include the accounts of the Company and its wholly-owned subsidiaries. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Inter-company balances and transactions, and any unrealized income and expenses arising from inter-company transactions, are eliminated in preparing the condensed consolidated interim financial statements.

Name of subsidiary	Place of incorporation	Ownership interest
Standard Uranium (Saskatchewan) Ltd.	Saskatchewan	100%
Standard Uranium Holdings (Saskatchewan) Ltd.	Canada	100%

These unaudited condensed consolidated interim financial statements are based on the IFRS issued and effective as of September 27, 2024 the date these unaudited condensed consolidated interim financial statements were authorized for issuance by the Company's Board of Directors and follow the same accounting policies and methods of computation as the most recent annual consolidated financial statements.

3. Amounts receivable

Amounts receivable consist of GST receivable in the amount of \$17,674 (April 30, 2024: \$8,298) and receivables from JV partners of \$45,463 (April 30, 2024: \$Nil).

5. Marketable securities

On January 3, 2024, the Company received 3,098,938 common shares of Mamba Exploration Limited ("Mamba") pursuant to the definitive option agreement on the Canary project (Note 7). The shares are held in escrow until July 3, 2024. The fair value of the common shares on the date they were received was determined to be \$153,005.

On February 8, 2024, the Company received 1,333,333 shares of Aero Energy Limited ("Aero") pursuant to the definitive option agreement on the Sun Dog project (Note 7). The shares are held in escrow until June 9, 2024. The fair value of the common shares on the date they were received was determined to be \$200,000.

On February 16, 2024, the Company received 3,000,000 shares of ATCO Mining Limited ("ATCO") pursuant to the definitive option agreement on the Atlantic project (Note 7). The shares are held in escrow until June 17, 2024. The fair value of the common shares on the date they were received was determined to be \$285,000.

During the three months ended July 31, 2024, the Company sold:

- 526,500 shares in Aero for gross proceeds of \$67,445.
- 3,000,000 shares in ATCO for gross proceeds of \$68,964.
- 3,098,938 shares in Mamba for gross proceeds of \$27,922.

At July 31, 2024, the fair value of the common shares was determined by reference to their respective share prices. A summary of the movement in the carrying value of marketable securities is as follows:

Balance as at April 30, 2023	\$	-

Davidson River project:

The Company holds an option to acquire a 90% interest in the Davidson River project for an aggregate sum of \$1,000,000 and the issuance of 1,000,000 common shares of the Company. The Company has made cash payments to date totaling \$450,000, of which \$Nil was paid during the three months ended July 31, 2024 (April 30, 2024 - \$125,000) and is required to pay an additional \$550,000 over a period of five years from the date the Company was listed on a stock exchange.

The Company was also required to issue 1,000,000 common shares on the date the Company was listed on a stock exchange. The common shares were issued during the year ended April 30, 2021 and had a total fair value of \$270,000. In addition, the Company has the right to acquire the remaining 10% interest in the Davidson River project for the sum of \$10,000,000 if exercised within one year of March 1, 2018, and increased thereafter by inflation, expiring February 28, 2028. The Davidson River project is subject to a 2.5% gross overriding royalty with respect to all mineral production from the project.

Sun Dog project:

The Company holds a 100%-interest in the Sun Dog project located along the northwestern edge of the Athabasca Basin.

7. Exploration and evaluation assets (continued)

On October 20, 2023, the Company signed a definitive option agreement (“Sun Dog Option Agreement”) with 1443904 B.C. Ltd., which was subsequently acquired by Aero Energy Ltd. (“Aero”), pursuant to which, Aero will be granted the option to acquire 100% of the Sun Dog project by completing three years of exploration programs and a series of cash and equity payments as follows:

- Year 1: Cash payment of \$200,000 (received), equity payment equal to \$200,000 (received 1,333,333 common shares of Aero with a fair value of \$200,000 (Note 5)) and incur exploration expenditures of \$1,500,000.
- Year 2: Cash payment of \$200,000, equity payment equal to \$200,000 and incur exploration expenditures of \$2,000,000.
- Year 3: Cash payment of \$250,000, equity payment equal to \$250,000 and incur exploration expenditures of \$3,000,000.

Upon signing the Sun Dog Option Agreement, the Company deemed it appropriate to carry out an impairment assessment as to whether the carrying amount of the property exceeded its recoverable amount. An indicator of impairment was identified, and the recoverable amount was determined to be \$1,106,833 based on the fair value of the consideration to be received pursuant to the Sun Dog Option Agreement, using a discount rate assumption of 17%. Accordingly, an impairment expense of \$2,872,034 was recognized related to the property during the year ended April 30, 2024.

The Company will act as the operator of the project and is entitled to charge a 10% fee on expenditures. During the three months ended July 31, 2024 the Company earned an operator fee on the Sun Dog project of \$64,281. As of July 31, 2024, the Company had received cash advances of \$411,861 from Aero to be incurred on the Sun Dog project.

During the three months ended July 31, 2024, the Company received a \$50,000 rebate from the Government of Saskatchewan under the Targeted Mineral Exploration Incentive (“TMEI”).

Canary project:

On December 27, 2023, the Company signed a definitive option agreement with Mamba Exploration Limited (“Mamba”), pursuant to which, Mamba will be granted the option to earn a 75% interest over three years in the 7,302-hectare Canary project located in the eastern Athabasca Basin.

The Option is exercisable by Mamba in two stages. During the first stage, Mamba can earn a 50% interest by completing the following:

- Year 1: Cash payment of \$100,000 (received), equity payment equal to \$100,000 (received 3,098,938 with a fair value of \$153,005 (Note 5) representing \$100,000 under the agreement) and incur exploration expenditures of \$1,000,000.
- Year 2: Cash payment of \$100,000, equity payment equal to \$100,000 and incur exploration expenditures of \$2,000,000.

After earning a 50% interest in the Canary project, the second stage will commence. During the second stage, Mamba can increase its interest in the Canary project to 75% by completing a further cash payment of \$100,000, arranging for the issuance of a further \$100,000 worth of shares to the Company and incurring an additional \$3,000,000 of expenditures, all within the third year.

The Company will act as the operator of the project and is entitled to charge a 10% fee on expenditures during the first two stages. During the three months ended July 31, 2024 the Company earned an operator fee on the Canary project of \$81,972. As of July 31, 2024, the Company had received cash advances of \$21,059 from Mamba to be incurred on the Canary project.

7. Exploration and evaluation assets (continued)

Atlantic project:

On February 20, 2024, the Company signed a definitive option agreement (“Atlantic Option Agreement”) with ATCO Mining Inc. (“ATCO”), pursuant to which, ATCO will be granted the option to earn a 75% interest in the Atlantic project by completing three years of exploration programs and a series of cash and equity payments as follows:

- Year 1: Cash payment of \$110,000 (received), equity payment of 3,000,000 common shares (received with a fair value of \$285,000 (Note 5)) and incur exploration expenditures of \$1,300,000.
- Year 2: Cash payment of \$120,000, equity payment of 6,000,000 common shares and incur exploration expenditures of \$2,000,000.
- Year 3: Cash payment of \$200,000, equity payment of 6,000,000 common shares and incur exploration expenditures of \$3,000,000.

The Company will act as the operator of the project and is entitled to charge a 10% fee on expenditures in Year 1, increasing to 12% in Year 2 and Year 3. The Company earned an operator fee of \$4,515 during the three months ended July 31, 2024.

Other projects:

The Company’s portfolio includes seven additional projects in the Athabasca uranium district. The Ascent project is located in the northern portion of the eastern Athabasca Basin. Additionally, the Rocas, Corvo, Ox Lake and Cable Bay SW projects are positioned marginal to the present-day eastern boundary of the Athabasca Basin. The newly staked Harrison project is situated in the southwest Athabasca Basin, proximal to the flagship Davidson River project. The Brown Lake project is located just inside the Basin margin.

Corvo project

On September 19, 2023, the Company issued 250,000 common shares (Note 10) to Eagle Plains Resources Ltd. to acquire eight additional claims contiguous with the Corvo project. The common shares were recorded at their fair value of \$81,250.

8. Loans payable

On July 6, 2023, the Company received proceeds of \$50,000 from an arms-length third party by way of a promissory note. On August 8, 2023, the Company received an additional \$25,000 as an additional advance under the same promissory note. The promissory note is unsecured, bears interest at 10% per annum, and is due on demand. The loan was repaid during the year ended April 30, 2024.

9. Flow-through share premium liability

- a) On December 13, 2023, the Company completed a private placement whereby the Company issued 5,965,137 flow-through units for gross proceeds of approximately \$1,789,541. Each flow-through unit consisted of one flow-through common share and one-half share purchase warrant exercisable at a price of \$0.45 per common share for a period of two years (Note 10). The flow-through shares were issued at a premium of \$0.05 per flow-through share, calculated as the difference in the price per flow-through unit and the price of a standard unit sold as part of the same offering, as tax deductions generated by the eligible expenditures will be passed through to the shareholders of the flow-through shares once the eligible expenditures are incurred and renounced.

The total flow-through share premium liability related to the 5,965,137 flow-through shares was calculated to be \$311,753 and represents the Company’s obligation to spend \$1,789,541 on eligible expenditures.

(Expressed in Canadian dollars - unaudited)

9. Flow-through share premium liability (continued)

Expenditures related to the use of flow-through unit proceeds are included in exploration and evaluation assets but are not available as a tax deduction to the Company as the tax benefits of these expenditures are renounced to the investors.

At July 31, 2024, the Company has \$1,300,163 of eligible expenditures remaining to incur. A continuity schedule of the Company's outstanding balance for the three months ended July 31, 2024, and the year ended April 30, 2024 are as follows:

10. Share capital

Authorized share capital:

Unlimited common shares without par value.

Issued and outstanding:

At July 31, 2024, there were 46,129,838 (April 30, 2024: 46,129,838) common shares issued and fully paid common shares outstanding.

There were no common shares issued during the three months ended July 31, 2024, or July 31, 2023.

Reserves:

The share-based payment reserve records items recognized as stock-based compensation expense and other share-based payments until such time that the stock options or warrants are exercised, at which time the corresponding amount will be transferred to share capital.

Options:

The Company has a stock option plan whereby a maximum of 10% of the issued and outstanding common shares of the Company may be reserved for issuance pursuant to the exercise of stock options. The terms of the granted options are fixed by the Board of Directors and are not to exceed ten years. The exercise price of options are determined by the Board of Directors, but shall not be less than the closing price of the Company's common shares on the day preceding the option grant date, less any discount permitted by the Exchange. Options granted under the plan may vest immediately on grant, or over a period as determined by the Board of Directors or, in respect of options granted for investor relations services, as prescribed by Exchange policy.

Restricted Share Units:

On October 22, 2022, the Company established a Restricted Share Units ("RSU") plan which provides for the issuance of RSUs in such amounts as approved by the Board of Directors. The RSUs are awarded in the nature of a bonus for services rendered that, upon settlement, entitles the recipient to acquire shares, to receive the cash equivalent, or a combination thereof, at the discretion of the Board. RSUs settled in common shares are equity-settled and the related share-based compensation expense is measured at the fair value based on the Company's share price on grant date, subject to vesting criteria.

The Company also has prepaid \$16,667 (April 30, 2024: \$10,500) to certain officers of the Company in connection with expenses to be incurred on behalf of the Company.

12. Financial instruments and risks

(a) Fair values

The fair value of cash, other accounts receivable and accounts payable approximate their carrying values due to the short-term to maturities of the financial instruments.

(b) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk.

(c) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is in its cash. The risk in cash is managed through the use of a major financial institution which has a high credit quality as determined by rating agencies. Credit risk is assessed as low.

(d) Foreign exchange rate risk

Foreign exchange risk is the risk that the Company's financial instruments will fluctuate in value as a result of movements in foreign exchange rates. The Company has no assets or liabilities denominated in foreign currencies; therefore, is not exposed to foreign exchange risk.

12. Financial instruments and risks (continued)

(e) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company requires funds to finance its business development activities. In addition, the Company needs to raise equity financing to carry out its exploration programs. There is no assurance that financing will be available or, if available, that such financings will be on terms acceptable to the Company. Liquidity risk is assessed as high.

(f) Price risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities is subject to risks associated with fluctuations in the market price of commodities.

13. Capital management

The Company's capital structure consists of cash and share capital. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support acquisition and exploration of resource properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company is dependent on external financing to fund its activities. In order to carry out exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. The Company will continue to assess new exploration and evaluation assets and seek to acquire interests in properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management since inception. The Company is not subject to externally imposed capital requirements.

14. Commitments

Pursuant to the option agreement entered into between the Company and the counter party (Note 7) in connection with the Davidson River project, the Company has the following commitments:

- a. Within 48 months of a Going Public Transaction, pay the sum of \$200,000
- b. Within 60 months of a Going Public Transaction, pay the sum of \$350,000.
