Notes to the Condensed Consolidated Interim Financial Statements

(Expressed in Canadian dollars – unaudited)

1. Nature and continuance of operations and going concern

Standard Uranium Ltd. (the “Company”) was incorporated in the province of British Columbia on November 20, 2017. The Company is engaged in the exploration and evaluation of resource properties. The Company’s registered office is #918 - 1030 West Georgia Street, Vancouver, British Columbia, V6E 2Y3.

These condensed consolidated interim financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at January 31, 2026, the Company has not generated any revenue and has incurred losses since inception. The Company’s continuation as a going concern is dependent on its ability to generate future cash flows and/or obtain additional financing. Management intends to finance operating costs over the next twelve months with cash on hand and private placements of common stock. There is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern. These condensed consolidated interim financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

2. Material accounting policies

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board (“IASB”). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”) have been omitted or condensed, and therefore these unaudited condensed consolidated interim financial statements should be read in conjunction with the Company’s April 30, 2025, audited annual consolidated financial statements and the notes to such financial statements.

These unaudited condensed consolidated interim financial statements include the accounts of the Company and its wholly-owned subsidiaries. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Inter-company balances and transactions, and any unrealized income and expenses arising from inter-company transactions, are eliminated in preparing the condensed consolidated interim financial statements.

Name of subsidiary	Place of incorporation	Ownership interest
Standard Uranium (Saskatchewan) Ltd.	Saskatchewan	100%
Standard Uranium Holdings (Saskatchewan) Ltd.	Canada	100%

These unaudited condensed consolidated interim financial statements are based on the IFRS issued and effective as of March 31, 2026 the date these unaudited condensed consolidated interim financial statements were authorized for issuance by the Company’s Board of Directors and follow the same accounting policies and methods of computation as the most recent annual consolidated financial statements.
